(Auburn campus)

Why Cayuga?

What were your perceptions, if any, of Cayuga before you enrolled?

"I was expecting a large collegiate building with many people being very busy. Not the comfy environment it really is."

How have those perceptions changed since?

"Yes, I was not expecting the setting to be so relaxed."

Why did you choose Cayuga?

"The cost. Schools in NYC wanted per semester, what I'm paying for 2 years at Cayuga."

Have there been positive effects in your life as a result of attending Cayuga?

"Yes, I feel as if my maturity level has increased because of the extra work I'm given."

Would you recommend Cayuga?

"I have. My father went here, and I have two cousins coming next semester."

Degree: Associate in Science (Telcom)

Career choice: Audio engineering/video production

Whether your interest is engineering or directing, performance or production, broadcast journalism or advertising Cayuga's Media and Telecommunications Programs can get you started. Cayuga can help you prepare for a broad range of media careers.

Tradition of excellence

Cayuga recently was recognized as one of the six best broadcast-engineering schools in the United States. Our media program is one of the most firmly established in the Northeast. We began offering our degrees in 1972 and have been successfully creating media professionals ever since!

Degrees in Media

Media Production & Broadcasting

Audio & Music Production

Telecommunications Technology

Concentrations in video/digital film production, film and cinema studies, digital media, broadcast journalism, music production.

New York's only college with SBE certification

Certified graduates of Cayuga's Telecommunications Technology program are automatically certified as Broadcast Technologists by the Society of Broadcast Engineers — this is the only program in New York State to offer this credential. The SBE certificate is the key credential facilitating career entry and advancement in broadcast engineering.

State-of-the-Art

Professional instruction requires hands-on access to state-of-the-art equipment. At Cayuga, you'll find the same type of professional studio hardware you'll find out in the 'real' world, including the following:

- 32-track audio recording studio
- 16-track remote recording facility
- FM radio station
- Television studio and remote equipment
- Digital media lab, and production suites

In touch with the industry

Cayuga's practical approach to media instruction emphasizes contact with established industry professionals in the classroom and studio, and through on-site internships. According to our most recent graduate follow-up report, 90% of Telecommunications graduates were either employed in the industry or pursuing studies at a four-year institution.

Student housing

Lattimore Hall, privately owned and managed student housing, offers modern, dormitory-style accommodations just a short ride from the main campus. Visit www.lattimorehall.com for details.

For requirements and detailed course descriptions, view the Cayuga Community College catalog online at www.cayuga-cc.edu.
