PHYSICAL THERAPY CONCENTRATION

For transfer to a Physical Therapy Program

- Requires bachelor's degree admission – submission of GRE scores. GRE scores – typically taken your junior year, must be submitted to the college of education, and must include the following credits:
  - MATH 106: Calculus
  - PHYS 103: General Physics
  - CHEM 104: General Chemistry

RADIATION THERAPY CONCENTRATION

For transfer to a Radiation Therapy Program

- Some schools require GRE or MAT/GRE scores for submission to radiation therapy programs. This requirement varies from school to school, and students should check with the specific institution for this information.

- Students must be ready to commit to the radiation therapy program, and must have completed requirements for transfer to a Radiation Therapy Program (RTP) at SUNY Upstate, as per the Radiation Therapy Program at SUNY Upstate.

- Additional requirements may include the following:
  - Completion of a baccalaureate degree
  - Minimum GPA of 3.0
  - SAT or ACT scores
  - Letters of recommendation
  - Personal statement

- Students are advised to consult with a SUNY Upstate University Representative to ensure that they have completed all necessary steps to become a radiation therapist.

- It is recommended that students complete a minimum of 12 units of the required courses before submitting an application.

- The program is designed to provide students with a comprehensive understanding of the principles and practices of radiation therapy.

- Students are encouraged to contact the program director for more information on the application process.

- The program is accredited by the Commission on Cancer of the American College of Radiology.
